\$2.91	\$2.95	23.50%
\$2.96	\$3.00	24.00%

The PFS Fuel Surcharge for all transportation moves is based on the scale as provided. The diesel price is based on the D.O.E. Weekly National Average price per gallon which is posted every Monday at 4:00 PM EST at the following link: http://tonto.eia.doe.gov/oog/info/wohdp/diesel_detail_report.asp

The price pushed each Monday will then become effective on all orders received Tuesday of that week thru Monday of the following week.

In the event fuel exceeds \$4.650 per gallon, the fuel surcharge will continue to increase at the rate of .05% for each \$0.05 per gallon increase in the price of fuel.
